Pentalabel[®] SmartCycle[®] Pro

Recyclable shrink sleeve films produced with 30% post-consumer recycled content

SmartCycle[®] Pro is the next generation of shrink sleeve label film that can be recycled directly with the PET bottles they are applied to. SmartCycle[®] Pro has that added benefit of containing 30% post-consumer recycled content which closes the loop and supports a circular economy.

Benefits

Increased recycling productivity

Supports a circular economy
with 30% PCR content

High shrink properties

360° decorating opportunity

Exceptional clarity

Applications

- Water bottles
- Sports drink bottles
- Beer cans
- Food packaging
