Pentadecor® Galaxy Time

Make your home sparkle

Our new Pentadecor® Galaxy Time films, specifically engineered for solid colors, provide a unique, additional finish dimension that looks different in any light. With Galaxy Time, we succeed in giving surfaces a deep shimmer and sparkle without the use of special metallic pigments. Our innovative film can incorporate varying degrees of matt and gloss levels within the product surface, ensuring a unique design.

Benefits

Embossed surface with deep shimmer and sparkle

Futuristic look meets trend for new future optimism

Alternation of matte and glossy effects

Visible 3D effects

Applications

- Cabinet doors
- 5-piece doors
- Curved/flat elements
- Wrapping
