SmartCycle® Plus

Premium Sustainable Shrink Sleeve Films

Introducing SmartCycle® Plus, the innovative heat shrink sleeve label film that redefines sustainability and performance. Made from 30% post-consumer recycled materials, SmartCycle® Plus offers a significant reduction in environmental impact while maintaining exceptional shrink rates. Opting for SmartCycle® Plus means choosing a reliable, eco-friendly label film solution that processes like standard virgin grade films. Join us in revolutionizing label films with SmartCycle® Plus – where sustainability meets excellence.

Benefits

Highest shrink rate of any sustainable label film

PCR content films have lower carbon footprints

Processes as if it were virgin grade film

Recyclable in the RIC 1 recycling stream

Excellent clarity
