Pentalabel® SmartCycle®

Recycling Simplified

SmartCycle® is the next generation of shrink sleeve labels that will process through the recycling system without causing any interruptions.

SmartCycle® recyclable labels use a special ink that washes completely off during the recycling process and are produced from a proprietary, crystallizable PET blend that will improve recycling efficiencies.

Benefits

Increased recycling productivity

High shrink properties

Promotes greater recycling

360° decorating opportunity

Supports a circular economy

Exceptional clarity
