kpSilver™

Cost effective alternative to CFF packaging

kpSilver™ films are designed as a cost-effective, high-speed thermoforming option with an aluminum look comparable to cold-form foil packaging. Increase your productivity while decreasing your overall costs with kpSilver™ pharmaceutical films!

Benefits

Mimics visual characteristics of CFF packaging

Smaller blisters possible versus CFF packages

Cost effective alternative to CFF packaging

Customizable barrier protection

Applications

- Ethicals
- OTC
- Generics
- Veterinary medicine
- Nutraceuticals
