Pentaform® SmartCycle®

Protecting the environment is everybody's concern. That's why we strive to produce films that support a circular economy and help our customers meet their sustainability goals. Our SmartCycle® portfolio contains films with 25%-100% post-consumer recycled (PCR) content which provide plastic packaging options to consumers while building long-term value for consumer product companies and retailers.

PCR Portfolio

- 25%
- 35%
- 50%
- 100%

Benefits

Made from PCR plastic bottles

PCR content from 25%-100%

100% recyclable

Supports a circular economy keeping waste out of landfills
