## Vinyl Flooring Films

Engineered for long lasting protection

kp wear layer and print layer flooring films are plasticizer free\* and engineered for long-lasting durability. They are perfect for LVT & RVP applications utilizing SPC or WPC cores. We can adjust the print layer surface color and texture (matte or gloss) to match your exact design requirements. Our wear layer films provide superior UV resistance and long-lasting protection.

### Benefits

Plasticizer free\*

Excellent clarity

Superior UV protection

Consistent print & lamination processing

### Applications

- Luxury Vinyl Tile
- Rigid Vinyl Plank
- Composite Flooring

\* We do offer semi-rigid film options free of phthalates and adipates.
