LiquiGuard®

LiquiGuard® is a specialized high-barrier packaging film that protects its contents from external environmental conditions. Produced from a specialized triplex structure, LiquiGuard® offers superior protection against internal liquid evaporation while securing product potency & integrity.

Benefits

Customizable high-barrier formulas

Specialized PE layer for excellent sealing

Excellent processing on VFF equipment

Prevents internal liquid evaporation

Applications

- Liquid insect baits
- Concentrated oil refills
- Candle fragrance refills
- Fragrance refills
- CBD oil refills
