Pentaclear® SmartCycle®

Sustainable packaging solutions that make your products stand out

Protecting the environment is everyone's concern - our durable, sustainable box films help you take the next step towards sustainability. Our PET films offer a broad portfolio containing a wide range of recycled materials to support your sustainability goals and the circular economy. Pentaclear® PET films are available in transparent or white.

Benefits

Produced from 25% to 50% post-consumer recycled material

APET films are recyclable

Exceptional clarity and brilliant surface appearance

Very good cutting and punching behaviour

Excellent printability

Applications

- Folding boxes
- Round boxes and lids
- Window boxes
- Ideal for gift boxes, decorative accessories, various household and cosmetic applications

Portfolio

- APET and PCR APET grades
